

**OLD BARNSBURY
TRANSFORMATION**
NOVEMBER 2023

**REFURBISHMENT
WORKS UPDATE**

JOIN US FOR OUR NEXT RESIDENTS' UPDATE MEETING ON 28 NOVEMBER

Following our meetings in July and August, we've been continuing to develop the refurbishment works as well as the proposed energy and sustainability strategies for Old Barnsbury.

We will explain how we are able to start the programme of work on Old Barnsbury. We have now finalised plans for kitchen & bathroom layouts to include mechanical ventilation.

We want to invite you to our next residents' meeting to provide an update to you and answer any questions you may have. This meeting will be held on **28 November from 6-8pm.**

Turn over for more details.

The works to your kitchens and bathrooms marks a key step in delivering the improvements to Old Barnsbury that you voted for in 2021.

Have your questions answered

A presentation will take place at the Barnsbury Community Centre on **Tuesday 28 November from 6-8pm**. The presentation will start promptly at 6pm, after which a Q&A session will take place where you can ask any questions of the Newlon team.

Next steps

We will be working towards tendering and appointing contractors in the New Year to start works on kitchens and bathrooms. We want to make sure residents have their input in this process, so if you're interested please let us know at one of these sessions or by getting in touch below.

We will continue to keep you informed and meet with you regularly as these works progress.

Residents in the first block to be refurbished at Fisher House will be notified, and we will hold a meeting before work starts with these residents.
